FOR RELEASE ON 2:13AM, Friday, February 4, 2011

eLocity 10-INCH ANDROID TABLETS LAUNCH FOR PRE-ORDER ONLINE WITH AMAZON, J&R, TIGER DIRECT, AND B&H PHOTO

eLocity A10 with Tegra 2 has highest screen resolution on the market

February 4, 2011 (Philadelphia, PA) Stream TV Networks is launching the eLocity A10 mobile tablet for online pre-order on February 15, 2011 with <http://Amazon.com>, <http://JR.com>, <http://TigerDirect.com>, and <http://BHPhoto.com>. The A10 4GB (A10.004), 32GB (A10.032) and 64GB (A10.064) models will be available for online order, with the 4GB units starting at the discounted price of \$399 for early orders, the 32GB model retailing at \$599.99 and the 64GB at \$699.99.

Like the original eLocity A7 seven-inch tablet launched in August of 2010, the new 10-inch A10 tablets will ship with the Flash-enabled Android 2.2 (Froyo) OS with the powerful dual-core NVIDIA Tegra 2 T250 processor. With high end components, seamless design and a great price point, the eLocity A10 mobile tablets offer better value at a fraction of the cost of competitive devices such as the Motorola Xoom.

The eLocity A10 will lead the tablet market with the highest available screen resolution of 1366 X 768 on a 10.1 inch IPS multi-touch screen. Like the A7, the A10 will include HDMI and USB 2.0 ports, as well as microSD slots that support up to 32GB of expandable storage. Full specifications are outlined below.

"We're glad to follow up the A7 with a line of strikingly designed tablets that raise the bar. We've exceeded the industry standards for resolution and we look forward to continuing to push the envelope with the other products we are planning to launch in 2011," states Mathu Rajan, CEO of Stream TV Networks.

The eLocity A7 and A10 tablets optimize portability, connectivity, and computing power like never before in a sleek design. The A series offers a wide range of mobile apps, supports Adobe Flash and is enabled for 3D gaming with the NVIDIA Tegra 2 T-250 dual-core processor. Sporting a high resolution capacitive multi-touch screen, high speed internal flash memory, the eLocity A series mobile tablets are multipurpose devices that provide a full entertainment solution along with business productivity and wireless connectivity.

Stream TV's mission is to bring to market innovative products featuring state-of-the-art technology designed to transform consumer communications and digital lifestyle. The eLocity line of consumer products stands to take video viewing and gaming to new levels through state of the art display and graphics technology.

ABOUT STREAM TV:

Stream TV Networks, Inc. is a Philadelphia-based new media company founded in 2009 to serve a consumer market seeking enhanced entertainment and communications experiences through superior quality devices with unlimited accessibility and superior quality. Through its eLocity brand, Stream TV intends to reshape the current media landscape by releasing computer-enabled devices that create an environment where on-demand access to content is available anytime and anywhere, where interactive user feedback is standard, and where creative participation and community formation around media content is nurtured. The company's mission is simple--redefine "new media" so that it reaches its true dynamic potential and real-time interactive relationship with the media consumer.
